
Voluntary Carbon Offsets Disclosure

As a company committed to transparency and environmental responsibility, we disclose the following information pertaining to each project or program involving the purchase or use of voluntary carbon offsets:

- Business Entity Selling Offsets
- Offset Registry or Program
- Project Identification Number (if applicable)
- Project Name
- Offset Project Type
- Site Location
- Protocol Used
- Third-Party Verification

In accordance with California Assembly Bill 1305, Section 44475.2, we disclose the following information regarding all greenhouse gas emissions associated with our claims of net zero emissions, carbon neutrality, or significant reductions:

- Method of Determination
- Interim Progress Measurement
- Third-Party Verification
- Verification of Company Data

Please see below for our most recent disclosure.

FY23 Disclosure

Claims

- “carbon neutral or ‘net-zero ready’ operations” ([FY23 Sustainability Report](#), page 33)
 - Method of Determination: AVEVA calculated its total scope 1 & 2 emissions, purchased renewable electricity for 100 percent of the electricity used in offices, and purchased carbon credits for the 7 percent residual emissions.
 - Interim Progress Measurement: Scope 1 & 2 emissions are monitored on a quarterly basis with additional Renewable Energy Certificates (RECs) and carbon credits purchased on an annual basis.
 - Third-Party Verification (Data): Yes
 - Third-Party Verification (Claim): No

ABOUT AVEVA

AVEVA is a world leader in industrial software, providing engineering and operational solutions across multiple industries, including oil and gas, chemical, pharmaceutical, power and utilities, marine, renewables, and food and beverage. Our agnostic and open architecture helps organizations design, build, operate, maintain and optimize the complete lifecycle of complex industrial assets, from production plants and offshore platforms to manufactured consumer goods.

Over 20,000 enterprises in over 100 countries rely on AVEVA to help them deliver life's essentials: safe and reliable energy, food, medicines, infrastructure and more. By connecting people with trusted information and AI-enriched insights, AVEVA enables teams to engineer efficiently and optimize operations, driving growth and sustainability.

Named as one of the world's most innovative companies, AVEVA supports customers with open solutions and the expertise of more than 6,400 employees, 5,000 partners and 5,700 certified developers. The company is headquartered in Cambridge, UK.
