

- Scalable, Resizable Vector Graphics using latest InTouch 10 Graphics Technology
- Ready for your animations in the Archestra Symbol Editor
- Ready for you to use with your System Platform Application Objects.
- Runtime Free Distribution - Licenses Only Needed for Development Workstations
- Only US\$695 for a Developers License with Runtime Free Distribution (Part # 41237130)

Scalable - Symbols are vector based and scale independent of screen resolution. The symbols leverage the vector graphics capabilities of the Archestra Symbol Editor

Animatable - Every part of the symbol is available for connecting your custom properties and animations to achieve just the look you want.

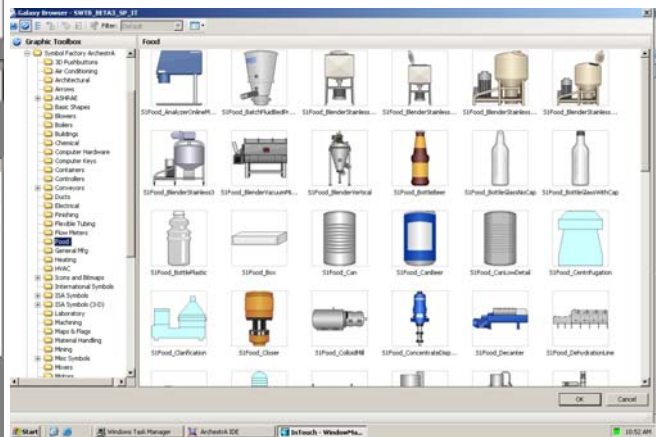

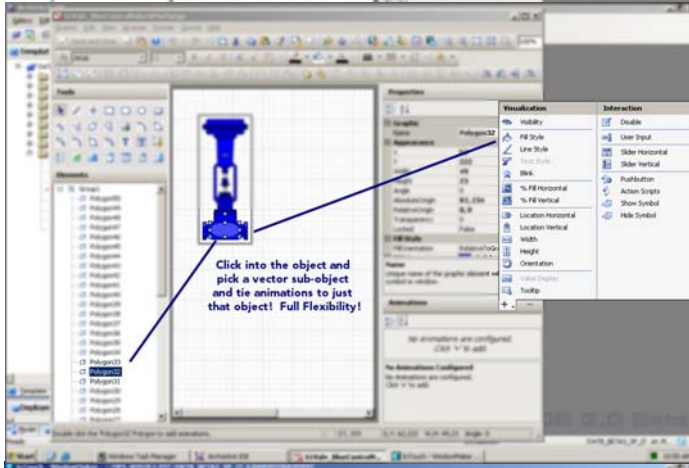

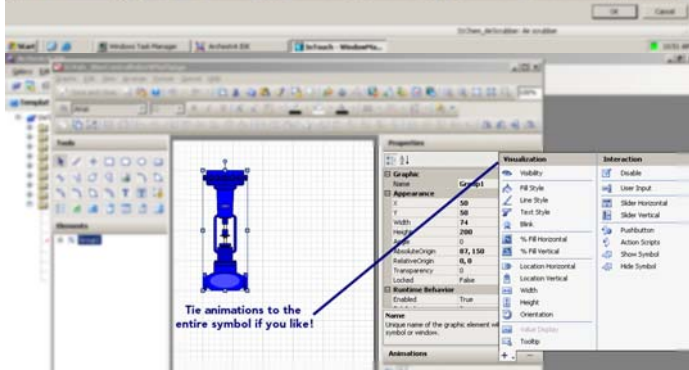

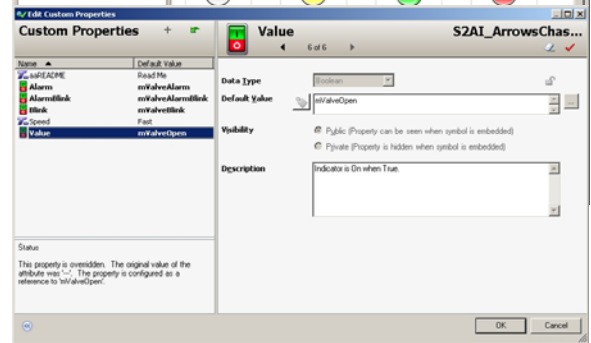

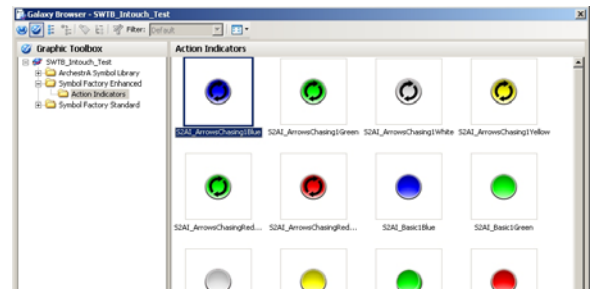

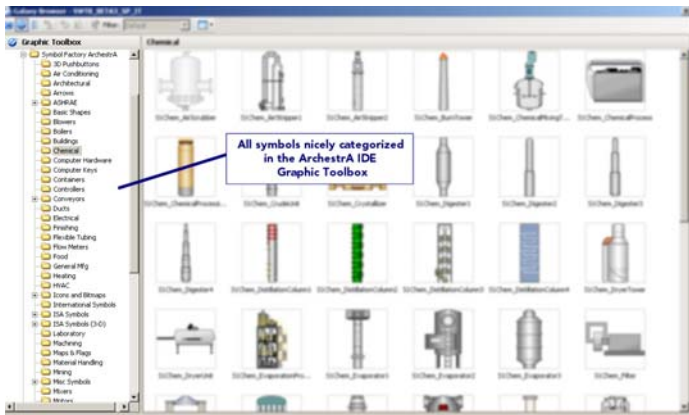

Centrally Managed in your Archestra IDE Graphics Toolbox and can be deployed throughout your galaxy.

Deployable - Make a change in the galaxy repository and all instances of the Symbol Factory for Archestra symbols are updated in your applications

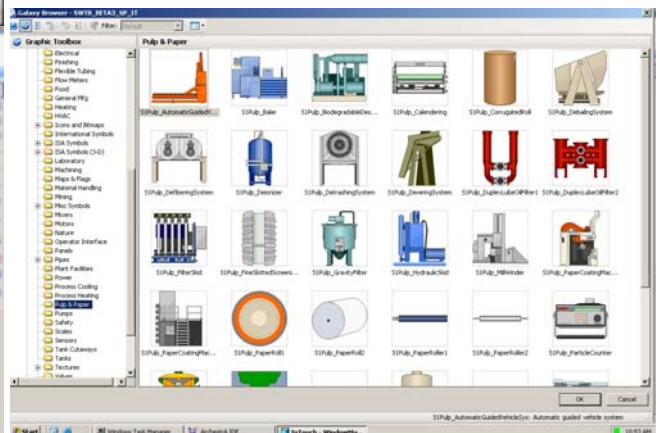

Embeddable - Embed any Symbol Factory for Archestra symbol into your System Platform Application Objects using System Platform 3.0 or higher

Extensive - 60 categories of over 4,000 Archestra symbols.

Industrial - In addition to common industrial equipment, Symbol Factory for Archestra includes vertical market categories for Pulp & Paper, Chemicals, Building Automation, Water & WasteWater, Mining, Finishing, and more. This is not office grade clip art. These Archestra symbols were built with manufacturing automation in mind.
