

**ORIN**OX  
Accelerate your digitalization

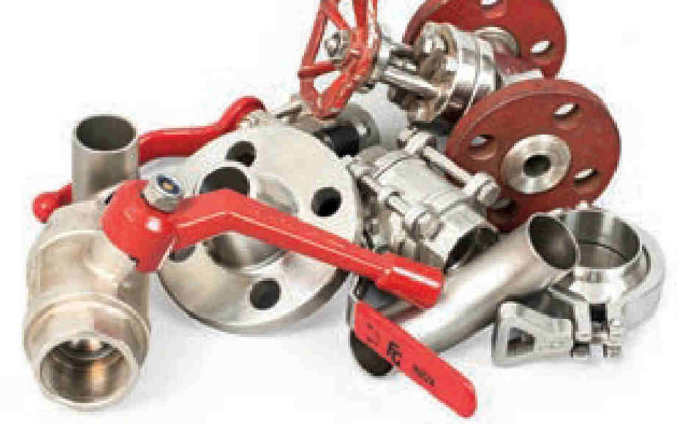

Maxime FOURREAU  
CEO, founder of ORINOX

In the last 10 years, ORINOX has developed a unique group of smart resources: PROCESS CONTENT TECHNOLOGY PEOPLE to support the Digital Twin philosophy.

ORINOX is more than just individual consultants. We're an entire community of technicians and engineering experts across the globe.

You no longer need to take this journey alone. ORINOX can guide the way and accelerate your digitalization.

TO BE THE DRIVER OF THE MOST EFFICIENT DIGITALIZATION IN ORDER TO OFFER

**THE BEST EXPERTISE TO THE PROCESS ENERGY AND MARINE INDUSTRIES**

### OUR PHILOSOPHY

Whatever the project, we have a solution. ORINOX is constantly innovating in order to simplify your digitalization journey. It is our job to help you overcome your challenges. We are always looking ahead to anticipate your emerging needs. Our smart resources can be used for both large and small projects, at home or abroad. Our role is to be a pioneer, not an endpoint. We are an extremely demanding and ambitious group of people, and we never stop striving for more efficiency.

### OUR VISION

Become a global digitalization partner of Owner-Operator (OO) and Engineering, Procurement, and Construction (EPC) companies to accelerate the world transition to a sustainable industry.

### OUR MISSION

Accelerate the world transition into a sustainable industry by enabling smart resources for plant digital twins.

End of handover

« Digitalization

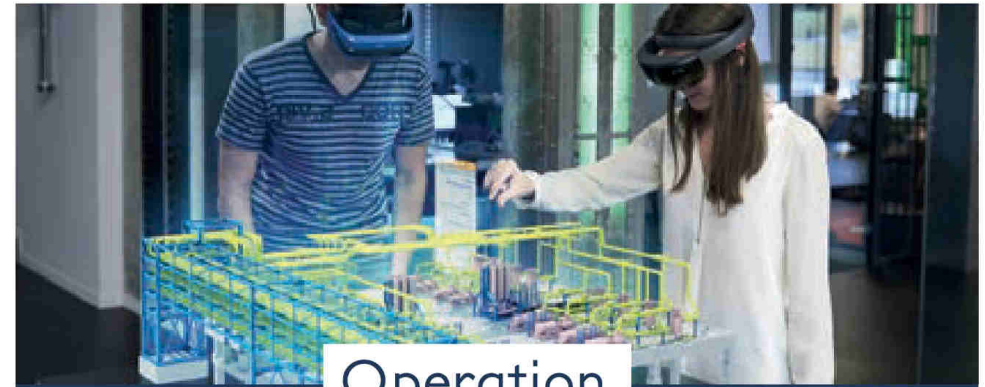

is the use of digital technologies to change a business model and provide new revenue and value-producing opportunities; it is the process of moving a digital business.

## Engineering and Design

- › Plant Design, and Model Review
- › 1D, 2D, 3D Model Conversion
- › Laser Scan and Reverse Engineering

## Operation

- › Induction and Simulation
- › Operator Training
- › Augmented Operator

- › Integrated Engineering and Design  
**AVEVA IE&D Expertise**
- › Procurement and Construction  
**AVEVA ERM Expertise**
- › Data management and Handover  
**AVEVA NET Expertise**
- › **AVEVA Training**

# Technology for **DIGITALIZATION**

## Software and Products

ORINOX has developed its own products, content and processes that improve your chosen AVEVA solutions.

Thanks to our long-standing partnerships with leading technology providers, we can recommend the best combined package to meet your needs.

## Cloud Web Services

ORINOX Cloud offers you a wide range of managed services which allows you to create & visualize your Engineering & Design project data in a global workspace.

Your team can safely access your up-to-date project from anywhere at any time. You can select the applications you need and enjoy a ready-to-use system.

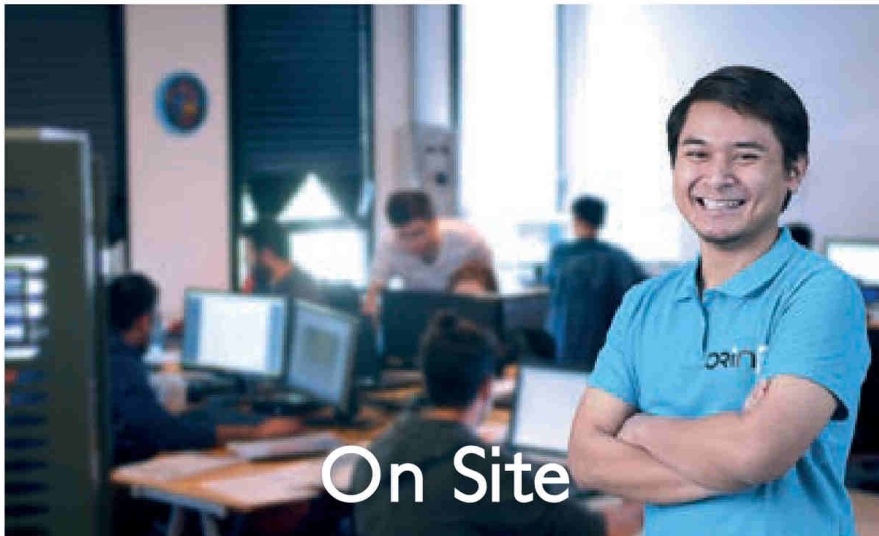

**We are continuously thinking ahead to anticipate your needs.  
Our team aims to discover the newest and best practices to enhance your business.**

# ORINOX Resources that fit everywhere

At your company or at ours... From the beginning, in the middle, or at the end of your project... Whenever and wherever you want, ORINOX can deploy, integrate, and drive the solution you need.

We are committed experts in the digitalization of industry. At any stage of your project, we're willing to work hand-in-hand with your business at a deeper, employee level.

## On Site

Our specialized resources can run your project side-by-side with your team.

## In House

Let our team of experts manage specific tasks off-site with confidence that we will meet your needs.

# Expert training across the AVEVA suite

Whatever your industry or level of experience, ORINOX puts the power of the Digital Asset in your hands. Our beginner courses provide a foundation for best practices, while our advanced courses are used to develop proficiency with additional modules (Advanced User, Administration, Catalogue).

Our training program is designed for you and your needs. We will support and train you as long as you need us.

- » **Core Training:** Participants follow one of our standard training sessions with clearly defined content, duration, and prerequisites.
- » **Customizable training:** Build your own training program based on the material from all available courses.
- » **Tailored training:** Our experts will create a customized training session based on your specific needs.
