Helping industries shape a sustainable future...

AVEVA and Accenture empower organizations to harness the full value of digital transformation in core manufacturing and help industries shape a sustainable future.

With the software and services/integration partners teaming from the start, organizations can significantly de-risk the cost of implementation while accelerating speed to market.

...through the power of end-to-end offerings

- Transformed engineering and capital projects
- Improved operations excellence
- Optimized asset and performance management
- Cloud-enabled value chain

- ✓ Reduce costs
- ✓ Fuel growth
- ✓ Faster transformational business outcomes
- ✓ Spur productivity
- ✓ Reduce risk

Experience innovation in a new way

Accenture's Milan Industry X Innovation Center, home to the demo display of the AVEVA Unified Operations Center, is the first ever complex that specializes in innovation solutions for large industrial projects. Through access to new, cutting-edge technologies we help our customers' projects achieve higher levels of security, transparency and collaboration, reduced construction costs and increased time to market.
