## Aim

AVEVA Group Limited is committed to full compliance with all statutory obligations and full disclosure to relevant tax authorities. The group's tax affairs are managed in a way which takes into account the group's wider corporate reputation in line with AVEVA's overall high standards of governance.

## Governance in relation to UK taxation

- Ultimate responsibility for AVEVA's tax strategy and compliance rests with the Board of AVEVA Group Limited.
- Executive management of the group's tax affairs is delegated by the Board to the Chief Executive Officer ('CEO') and Chief Financial Officer ('CFO') of AVEVA.
- The Audit Committee's requirement to monitor the integrity of AVEVA's financial reporting system, internal controls and risk management framework, expressly includes those elements relating to taxation.
- The CFO is the Board member with executive responsibility for tax matters.
- Day-to-day management of AVEVA's tax affairs is delegated to the Group Head of Tax, who reports to the CFO.
- The AVEVA Tax team is staffed with appropriately qualified individuals.
- The Board ensures that AVEVA's tax strategy is one of the factors considered in all investments and significant business decisions taken.
- The Group Head of Tax reports to the Audit Risk Committee and the Board on AVEVA's tax affairs and risks during the year.

## Risk Management

- AVEVA operates a system of tax risk assessment and controls as a component of the overall internal control framework applicable to the group's financial reporting system.
- AVEVA seeks to reduce the level of tax risk arising from its operations as far as is reasonably practicable by ensuring that reasonable care is applied in relation to all processes which could materially affect its compliance with its tax obligations.
- Processes relating to different taxes are allocated to appropriate process owners, who carry out a review of activities and processes to identify key risks and mitigating controls in place. These key risks are monitored for business and legislative changes which may impact them and changes to processes or controls are made when required.
- Appropriate training is carried out for staff outside the Tax team who manage or process matters which have tax implications.
- Advice is sought from external advisers where appropriate.

## Attitude towards tax planning and level of risk

AVEVA manages risks to ensure compliance with legal requirements in a manner which ensures payment of the right amount of tax.

When entering into commercial transactions, AVEVA seeks to take advantage of available tax incentives, reliefs and exemptions in line with, and in the spirit of, tax legislation. AVEVA does not undertake tax planning unrelated to such commercial transactions.

The level of risk which AVEVA accepts in relation to UK taxation is consistent with its overall objective of achieving certainty in the group's tax affairs. At all times AVEVA seeks to comply fully with its regulatory and other obligations and to act in a way which upholds its reputation as a responsible corporate citizen. In relation to any specific issue or transaction, the Board is ultimately responsible for identifying the risks, including tax risks, which need to be addressed and for determining what actions should be taken to manage those risks, having regard to the materiality of the amounts and obligations in question.

## Relationship with HMRC

AVEVA seeks to have a transparent and constructive relationship with HMRC through regular meetings and communication in respect of developments in AVEVA's business, current, future and retrospective tax risks, and interpretation of the law in relation to all relevant taxes.

AVEVA ensures that HMRC is kept aware of significant transactions and changes in the business and seeks to discuss any tax issues arising at an early stage. When submitting tax computations and returns to HMRC, AVEVA discloses all relevant facts and identifies any transactions or issues where it considers that there is potential for the tax treatment to be uncertain.

Any inadvertent errors in submissions made to HMRC are fully disclosed as soon as reasonably practicable after they are identified.
