# AVEVA™ E3D Design Usage Optimization Workshop - Draw for Marine

Increase drawing production and enhance project delivery

AVEVA E3D Design takes plant design to a new level of productivity and efficiency and is fully interoperable with other AVEVA Engineering and Design solutions. This workshop assists you in the effective use and setup of AVEVA E3D Design 3.1 - Draw, within a Marine project.

# Realize the full benefits of AVEVA E3D Design - Draw

---

## Value

AVEVA E3D Design is the world's most technologically advanced and powerful 3D design solution for the process plant, marine, and power industries. It offers class-leading productivity and capabilities while retaining seamless compatibility with other AVEVA Engineering and Design solutions.

This workshop will help unlock the efficiencies and benefits inherent to AVEVA E3D Design 3.1 - Draw. With the assistance of AVEVA's highly skilled and experienced staff, setup, features and functionalities will be shown within the Draw Application that will improve drawing production and aid project delivery.

## What's included

A workshop will be held to review the planned use of AVEVA E3D Design 3.1 - Draw and focus on helping you realize the full benefits of the product. Activities include:

- Pre-workshop call to capture particular requirements and existing practices for further consideration
- Project evaluation, understanding current drawing usage and expectation in Draw
- Explain/assist converting 12.1 SP5 Marine Drafting settings into Draw
- Advise how to set up Draw for optimum use of available features (e.g., utilize Visual Styles)
- Highlight any functional and key technical changes in the AVEVA E3D Design 3.1 - Draw product

# Accelerating your success!

AVEVA is continually developing and expanding a range of optional success accelerators designed to help you throughout the lifecycle stages of your application.

**Plan & Implement** – Engineer best practices and application architecture and improve time to value

**Operate** – Effectively run your software with expert training and drive increased engagement and adoption

**Maintain** – Efficiently maintain your software, including updates, patches, and license management

**Optimize** – Improve software performance and reliability and drive changes to address new market requirements

**Evolve** – Drive innovation through the deployment of major version upgrades, adopt new technology, and future-proof your application
