

SERVICES PROFILE

HMI Installation (OASyS SCADA)

The right installation is critical to success

With this service, an experienced AVEVA technical expert will install OASyS SCADA HMI software to a workstation. You get assurance that proven, best-practice approaches are employed, reducing risk and improving your system's time-to-value.

Let an experienced AVEVA technical expert install your software

OASyS SCADA is a highly secure and scalable real-time supervisory control and data acquisition platform for enterprise oil and gas pipeline and gas distribution operations worldwide. OASyS SCADA tightly integrates with advanced oil and gas distribution operations to bring the sharpest operational awareness to the control room.

Your success with OASyS SCADA begins with installation by an AVEVA technical expert to set you up for years of reliable operations. This offering provides the engineering effort to install the OASyS SCADA HMI software (Mainstream Support versions only) to a Microsoft Windows workstation. The expert has vast experience across many varied installations and is adept at identifying subtle nuances in your critical, unique SCADA environment that may require configuration/installation refinement.

Value

- Reduce risk and increase your confidence in the installation – you get assurance that proven, best-practice approaches are employed during the installation with minimal impacts to your operation
- Lower total cost of ownership – the installation is “done right the first time” and you won’t need to troubleshoot issues that can result from a less than optimal installation
- Improve time-to-value of your new SCADA system

What's included

- Engagement to assess the logistics and your SCADA environment
- Deployment of the OASyS HMI application to a single, pre-configured Windows workstation following standard AVEVA Change Management Checklist (CMC) procedures

The AVEVA Customer FIRST Program – accelerating your success!

Customer FIRST is AVEVA's comprehensive, fee-based software maintenance and technical support program that helps you achieve maximum benefit from your investment in AVEVA software. It includes access to our award-winning technical support and services team to quickly resolve issues, software version upgrades and updates, and valuable services and software utilities.

In addition to the base program, we also offer a range of optional success accelerators designed to help you throughout the lifecycle stages of your application.

Plan & Implement – Engineer best practices and application architecture and improve time to value

Operate – Effectively run your software with expert training and drive increased engagement and adoption

Maintain – Efficiently maintain your software, including updates, patches, and license management

Optimize – Improve software performance and reliability and drive changes to address new market requirements

Evolve – Drive innovation through the deployment of major version upgrades, adopt new technology, and future-proof your application
