PREREQUISITES

1 — AVEVA™ MES Operations 🔗

Asset modeling
Production process modeling
Shifts and scheduling
Work Orders
Production tracking
Bill of materials
Inventory
Genealogy
Security
Visualization
Reporting
System Platform integration

2 — AVEVA™ MES Quality 🔗

Quality specifications
Sample data collection
Reporting
MES Operations integration
System Platform integration

Standalone — AVEVA™ MES Performance 🔗

Asset modeling
Shifts and scheduling
Performance events
Utilization and downtime
OEE
Security
Visualization
Reporting
System Platform integration
